Is CSSLP Right for Me?

As organizations continue to pursue digital transformation initiatives, the threat landscape is always expanding. Yet cybersecurity leadership talent is scarce. That's where CSSLP from ISC2 comes in — to help fill the gap. Once certified, the opportunities for certified professionals are near limitless.

The CSSLP is ideal for software development and security professionals responsible for applying best practices to each phase of the Software Development Lifecycle (SDLC). It shows your expertise and ability to incorporate security practices - authentication, authorization and auditing - into each phase of Software Development Lifecycle.

As a first step – become an ISC2 Candidate

Begin your journey by joining ISC2, the world's leading cybersecurity professional organization. As a Candidate, you'll access a full range of benefits, including 10% off Online Self-Paced Training to help you on your path to CSSLP certification.

Sign up now. Your first year is free — no cost to you.*

*If you choose to renew after the first year, U.S. \$50 due annually.

Acquire four years experience

To qualify for the CSSLP, candidates must have a minimum of four years of cumulative paid work experience in one or more of the eight domains of the current ISC2 CSSLP Exam Outline.

If you don't yet have the required experience to become a CSSLP, you may become an Associate of ISC2 after successfully passing the CSSLP exam. The Associate of ISC2 will then have five years to earn the experience needed for the CSSLP certification.
